Using your mouse

When you hover your mouse over a place your avatar can walk to, an icon of a person will appear.

Left click on this area, your avatar will walk to where you clicked.

Use the Menu

In the top left corner, there is a drop down menu. Left click items for various functions.

The **GO TO menu** lists all the room you can fast travel or teleport to.

The menu under your name allows you to change your avatar, view your profile and use emotes.

F1-F8: Emotes

For more avatar commands, type `/help` in the public chat.

Voice chat

When the virtual world opens, your microphone is muted.

Click on the dedicated icon to open your microphone. It will turn green to indicate that others can hear you.

The virtual world has built-in voice recognition. While you are speaking, a speech bubble will appear above your avatar's head.

Alternatively, you can hold the “1” key to use the push-to-talk function : it opens your mic ; or use the “enter” toggle to open the text chat.

Presentation Boards

To use a presentation board, simply click on it.

A URL bar will appear in the bottom right corner of your screen to show you it is active.

Use this bar like a regular browser to navigate the web.

Specific Terminology

Spatialized voice

Volume of avatars' voices decreases as the distance increases.

Flat voice
